

Imagine This!!!!

The Florida Electronics Service Association is pushing for state legislation that would require manufacturers to pay the cost of service dealers who provide warranty service for a manufacturer. DUH!!!! Why didn't we think of that?

The manufacturers are fighting the bill as they are afraid it could lead to a decision similar to the one made in Connecticut that requires manufacturers to pay the same rates as consumers for warranty service.

I wonder if Wes knows this?? It's state law..... Have you applied for your PO Box in

Congratulations!!!!!!

Tech's Law!!!!!!!

- ◆ Nothing is as easy as it looks.
- ◆ Everything takes longer than you think.
- ◆ Anything that can go wrong will go wrong.
- ◆ If there is a possibility of several things going wrong, the one that will cause the most damage will be the one to go wrong. Corollary: If there is a worse time for something to go wrong, it will happen then.
- ◆ If anything simply cannot go wrong, it will anyway.
- ◆ If you perceive that there are four possible ways in which a procedure can go wrong, and you circumvent these, then a fifth way, unprepared for, will promptly develop.
- ◆ Left to themselves, things tend to go from bad to worse.
- ◆ It is impossible to make anything foolproof because fools are so ingenious.
- ◆ Whenever you set out to do something, something else must be done first.
