## Predictions 96'.....

Dave and John will become well know TV celebrities on two of network TV's top rated shows..... Starting with: "America's Most Wanted", then later in the year on "Unsolved Mysteries".....

Joe Nahler at Lincoln Mfg. Co. and Tim Thaler at Blodgett Oven Co. will continue their battle over who will be the "Official Hickory Log Supplier of Walt Disney World.....

Tom Enyeart will continue to yo-yo back and forth between Fuquay Varina South Carolina and Dallas Texas trying to decide where the grass is actually greener.....

Jack Muzzio will move to Boston and "The Cleveland Range Co. will change it's name to "The Boston Range Co.".....

A prominent Midwestern Manufacturing firm files suit against several of it's "Authorized Service Centers" for delivering poor quality service, only to find out it's their own service centers that they are suing.....

Wes Tyler will become the real "Godfather of Pizza".....

Florida will become the largest state in the union due to beach build-up caused by the dumping of broken down pizza ovens.....

Frank Burns will not, I repeat will not, be wearing his Dormont "Expose Your Hose" tee shirt at NRA 96'.....

Ex-distributors will continue to

wait patiently for their last big parts shipments.....

Frank Hawk will be made an offer by a Midwestern Mfg. Firm to come out-of-retirement to... well, "do what he does best"..... Frank's reply will be, "John, looks like you've done all right on your own".....

Carla Helm will be nominated for the Pulitzer Prize in Journalism for her ability and creativity in editing editorials sent to her for publishing in "ON Target". Only Carla can make Nothing out of Something....

Frymaster will call a special service council meeting in Dallas to announce their new 14 year warranty. Wayne Best, with tears streaming down both cheeks, will explain to the group why sales were down in 95' because their equipment only had a 7 year warranty.....

Tom Eichenauer will be banned from writing editorials for "On Target" simply because he uses so many "bigwords" that none of us can understand what he is saying.... His "analyzation" of the "different perspectives" of "actual / perceived reality" have created such a "paradigm" in my mind that now I don't know which dog is wagging which.... Really, Tom.....Who Cares???????

Please keep in mind when planning your 96' budgets, 96' being a Leap Year, We will all have to provide service at reduced I/W Rates one additional day.....

Bill Mallon will nominate Tom Eichenauer as Secretary of

CFESA for his ability to put everything into words that only he can understand. That way, with Tom recording the minutes, we would never get into trouble with manufacturers for something that we said.

Roger Martin will appoint Wes Tyler as permanent chairman of the clean-up / trash removal committee for all CFESA Conferences remaining during Rogers term as President.

## Lost & Found!!!!!!!

Don Johnson, with the Middleby Co.'s, has ask that we all keep our eyes open for two PS360 Wide-Body ovens that their new South Florida Service Center seems to have temporarily misplaced. Should you encounter ovens with questionable origin, please contact Don or Wes at:

**1-800-MIDDLEBY  
OR  
1-800-GCS**

## For Sale.....

One set of Middleby PS360WB ovens new in the box, some rusting but never used. Will ship anywhere in the world...fob Miami.....Call:
